ADJUSTED FIXED PRICE LIST

minimum order \$50.00 U.S.Cy. plus postage
(this list invalidates all other lists)

All notes on this list are in Crisp Uncirculated condition unless otherwise specified, and are priced in U.S.Currency. Prices are per unit. Not all notes are available in quantity, but some are available by the hundred; second choices will be appreciated. There are many changes in regard to the previous list.

Please include a minimum of \$10.00 per 100 notes for packaging and shipping or a minimum of \$7.50 for fewer notes. Postal service can be slow either coming or going. But your order will always be filled within 24 hours of receipt. **Please order by the number at the left margin of this list.** Catalog numbers are taken from Pick (10th edition) Volume II, Pick (12th edition) Volume III, and "The Complete Encyclopedia of Mexican Paper Money" by Douglas, Verrey, Hidalgo. Twenty-day return, for any reason. It is my wish to please you in all aspects. The last catalog number (DD) is from my publication: "Paper Money of the Bank of Mexico" (3rd edition).

El Mundo de la Moneda maintains an extensive stock of Bank of Mexico notes by date, series and, in some cases, sub-series. Please request your specific interests. We cannot have all dates and series, but a great variety is available. A majority of these notes is uncirculated, but certain ones are available in high grade circulated condition. Of course, prices are set accordingly. The early notes of each type are generally quite scarce, especially in sections I and II. We will gladly quote prices for specific dates and series.

Your orders of the notes in this price list will usually be filled with one of the most common series or date of each type. Specific dates or series will generally bear premium prices. If you are interested in this type of material please request our "Specialized Bank of Mexico List", (list # 2).

The first emission (anchos = "wide" or large-sized) notes of the Bank of Mexico do not appear on this list because they are not usually available. Anyone interested in these early notes should request information regarding the "First Series of Notes of the Bank of Mexico". You will be informed of what may be in stock at the time. The same applies for the notes of the "Second Series of the Bank of Mexico".

In each case the first and last date of each type are indicated in parentheses, though your order will be more than likely filled with notes bearing the last date. Remember, the bank notes, unlike coins, are generally not issued with an annual change in date. This kind of information is available in the specialized paper money catalogs or in our "Specialized Bank of Mexico List # 2".

This is a type list. Please do not order specific dates from this list.

List # 2: Specialized Bank of Mexico Lists. (This is a list of Banco de México notes by date and by series). Indicate your specific interests and we will send you the corresponding lists. (DVH: Douglas/Verrey/Hidalgo), (P: Pick). Choose from among the following:

List # 3: This is a list of all the notes of Mexico in our stock other than Banco de México issues; it includes notes from all historical periods: early state banks, military, state and private issues of the Revolution, as well as pre-revolutionary issues.

List # 4: We hold coin auctions twice a year. There is usually some paper money in each. Request a sample copy of our next auction catalog free of charge, or log onto <http://www.elmundodelamoneda.com> under auctions.

NUEVOS (NEW) PESOS

(First Issue of “Nuevos (New) Pesos” with same designs as fourth emission)

REVALUATION TO NEW PESOS – DATED JULY 31, 1992. PRINTED IN MEXICO. This series has also been withdrawn from circulation and may be redeemed only at a central bank. This is a single date type which is very scarce and since it is the first series of revalued (new peso) notes it is in high demand. It has become very hard for us to replace the notes sold from this series and those of the Sixth Emission. Designs are similar to notes in the previous emission (Fourth) but the last three zeroes have been deleted from the denomination.

PESOS – WITHOUT “NUEVOS” (NEW)
(1994-2002)

This is the most recent current series of notes which was released to circulation at the beginning of 1996. It is circulating together with the notes of the sixth emission. The most significant change in this series in regard to the previous series (Sixth Emission) is that the word “Nuevos” (new) has been deleted in the denominations on front and back. Also, the legend “Pagará a la Vista al Portador” (will pay on sight to the bearer) has been deleted. Signatures have been reduced from three to two, and there are a couple of other less significant variations. Otherwise the designs and colors remain the same as the previous series. The ten peso note has been substituted by a ten peso coin and has been withdrawn.
